THIS IS UNEVALUATED INFORMATION

THIS DOCUMENT CONTAINS INFORMATION AFFECTING THE NATIONAL DEFENSE OF THE UNITED STATES WITHIN THE MEANING OF THE ESPIONAGE ACT 50 U.S.C. 31 AND 32, AS AMENDED. ITS TRANSMISSION OR THE REVELATION OF ITS CONTENTS IN ANY MANNER TO AN UNAUTHORIZED PERSON IS PROHIBITED BY LAW. REPRODUCTION OF THIS FORM IS PROHIBITED.

1. In the list contained in this report are included the names and tonnages of 72 Polish merchant vessels with an approximate total tonnage of 218,000 gross tons. It is known that Poland possesses a small number of additional vessels, and that the Polish merchant marine is expanding at the present time through foreign purchasing. The Polish Government is attempting to build up a system of regular merchant traffic between Poland and other countries, and many of the ships which are listed in this report spend most of their time outside of the Baltic Sea area. Polish tonnage generally seems to be active, and vessels are usually well-kept.
2. Special tonnage, including large trawlers, tugs and ice breakers, is mainly being increased through additions of fishing vessels. It is known that Poland had the following special vessels: 39 large trawlers with an approximate total tonnage of 12,000 gross tons; 20 tugs with an approximate total tonnage of 4,000 gross tons; and 6 ice breakers with an approximate total tonnage of 2,000 gross tons.
3. Although Poland has barges which are used in internal waterways, the tonnage of such ships cannot be estimated. There are a large number of barges which have considerable load capacity being used on the Oder and other rivers at the present time.
4. The 72 ships are the following:
